*Race and Hispanic origin of mother<sup>2</sup>*

Year	Hispanic or Latina	Not Hispanic or Latina			
		White	Black or African American	Asian or Pacific Islander	American Indian or Alaska Native
Infant deaths per 1,000 live births <sup>1</sup>					
2014 . . . . .	5.01	4.89	10.93	3.68	7.66

<sup>1</sup> Infant (under 1 year of age), neonatal (under 28 days), and postneonatal (28 days–11 months).

<sup>2</sup> Persons of Hispanic origin may be of any race. Starting with 2003 data, some states reported multiple-race data. The multiple-race data for these states were bridged to the single-race categories of the 1977 Office of Management and Budget standards, for comparability with other states. See Appendix II, Hispanic origin; Race.

NOTES: Infant, neonatal, and postneonatal rates are based on the number of deaths from the mortality file and the number of births from the natality file. Infant mortality rates by race and Hispanic origin are from the Linked Birth/Infant Death data set, in which the most recent data available is 2014.
